

Berry innovation sparks a global revolution

Revolution set the trend by being the leader in unparalleled clarity, puncture resistance, high-speed unwind, excellent cling, and overall containment. This refined film has exceptional memory and pre-stretch capabilities.

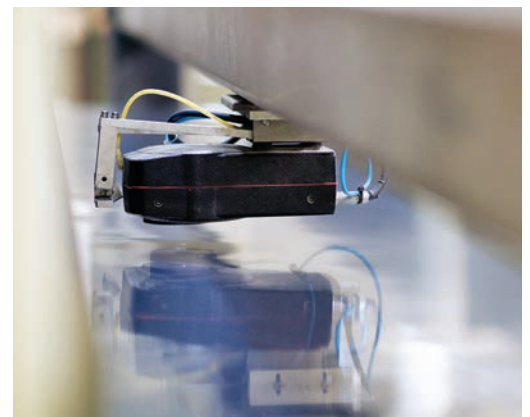

Features

- Leading load holding force
- Exceptional stretch film for puncture and tear resistance
- One-side cling—inside layer has highest tack in the industry
- 250–300% pre-stretch capability

Benefits

- 25% or more down gauge capability, leading to potential cost savings
- While the outside film has a slip layer, tails can be virtually eliminated
- Clarity makes scanning easier
- Increased production from reduction in film breaks and less roll changes

Leader for the stretch packaging industry

Continued commitment to innovation has kept Berry as the leader in stretch film technology for over 40 years, with next generation solutions helping our customers do more with less. Simply put, Berry provides high pallet integrity, source reduction, and low cost per load.

High Performance Machine Wrap

The industry leading yield machine film for automated, high-volume applications. This sophisticated film has exceptional memory and pre-stretch capabilities of up to 300%. Berry offers two versions of Revolution—standard R122 with a high-cling inside layer, and R122 Q with Q for quiet and easy unwind.

Product Code	Gauge	Width (in)	Length (ft)	Lbs per Roll	Rolls per Pallet
